

Thank You Michael Copps for your attempts at allowing public comment and preserving our public airwaves. In the name of all the small businesses who try to use low cost cable ads, and the good PR we get from underwriting local coverage of community sports, arts, and events, please DO NOT GIVE AWAY ANY MORE MEDIA RIGHTS TO THE ALREADY RICH, POWERFUL AND GREEDY. With all the capacity now available, why can't the corp. media leave some free space for local opinions and community building ? We need more independant voices in the media. We should not just be a captive audience of consumers.
